In today's hectic world, it is important to take time out to relax. Therapeutic "me-time" can be as simple as snatching 10 minutes with a cup of tea and your favourite magazine. But if you really want a fast-track to a super-relaxed you, a trip to 'The Cottage' beauty salon can't be beaten.

Based in one of the City's oldest buildings just off historic Timberhill, The Cottage is a haven of calm and tranquility. With attractive 17th-Century features, it is the perfect setting to pamper and indulge yourself.

The Cottage offers an alternative to the clinical, modern look of many salons. Based in a former weaver's cottage with fireplaces and exposed beams, it has a homely and inviting feel.

The salon's piece de resistance is a beautiful large beamed room with original fireplace featuring two treatment couches so friends or a couple can be pampered together.

Why not make the most of your treatment and arrive early to enjoy a freshly brewed coffee or fruit tea?
